Top Skills

Azure Kubernetes Service (AKS)
Microsoft Azure
Kubernetes
Agentic AI / Claude Code

Languages

English (Professional Working)
Russian (Native or Bilingual)
Lithuanian (Native or Bilingual)

Certifications:

- CNCF Golden Kubestronaut
- Certified Kubernetes Administrator (CKA)
- Certified Kubernetes Application Developer (CKAD)
- Certified Kubernetes Security Specialist (CKS)
- Istio Certified Associate (ICA)
- Linux Foundation Certified System Administrator (LFCS)
- Kubernetes and Cloud Native Associate (KCNA)
- Kubernetes and Cloud Security Associate (KCSA)
- Kyverno Certified Associate (KCA)
- Prometheus Certified Associate (PCA)
- GitOps Certified Associate (CGOA)
- Cloud Native Platform Engineering Associate (CNPA)
- Certified Backstage Associate (CBA)
- OpenTelemetry Certified Associate (OTCA) – 87% (75% required)
- Cilium Certified Associate (CCA)
- Certified Argo Project Associate (CAPA)
- Microsoft Certified: Azure Administrator Associate
- Microsoft Certified: Windows Server Administrator

Andrej Trusevic

CNCF Golden Kubestronaut | Cloud Engineer at If Insurance
Lithuania

Experience

If Insurance (If P&C Insurance)

Cloud Engineer Kubernetes and Azure

November 2013 - Present Lithuania

Cloud Engineer with 18+ years in IT, including 13 years of on-prem infrastructure and cloud engineering at If. Specializing in enterprise Kubernetes platform architecture, security, automation and maintenance. Responsible for Azure Kubernetes Service (AKS) platforms powering core business workloads, and for applying agentic AI to day-to-day platform operations.

Main responsibilities:

- Design, build and operate production-grade AKS clusters
- Architect secure, scalable enterprise Kubernetes platforms
- Implement RBAC, Network Policies, Pod Security, cluster hardening
- Manage Kubernetes upgrades and lifecycle strategy
- Develop Infrastructure as Code (Terraform, ARM, Helm, Ansible)
- Implement CI/CD and GitOps (Azure DevOps, Flux, ArgoCD)
- Design full Azure platform architecture (compute, identity, security, governance, networking)
- Drive automation using Bash, PowerShell, and Python
- Ensure platform reliability, security, and standardization

Agentic AI & AI-assisted operations:

- Build Claude Code skills that turn platform runbooks and operational knowledge into reusable, reviewable agent workflows (upgrades, incident triage, routine maintenance)
- Design agentic workflows with subagents for parallel investigation, MCP servers that connect agents to clusters, metrics, docs and CI/CD, and hooks and loops for automation and guardrails
- Apply safety guardrails for agents in production: read-only by default, with any change needing a stated blast radius and explicit human approval
- Share AI-assisted platform engineering practices publicly on sysadminas.eu

Core Expertise:

- Kubernetes architecture & security
- Azure platform engineering (end-to-end cloud infrastructure)
- Infrastructure as Code & automation
- Bash, PowerShell & Python scripting

- Agentic AI for platform engineering (Claude Code, skills, MCP, subagents)
- Linux systems engineering and administration
- Virtualization platforms (Hyper-V, VMware)
- Windows Server administration (Active Directory, DNS, DHCP, Failover cluster, MSSQL etc.)

Palink UAB

5 years 9 months

IT Administrator

February 2011 - November 2013 (2 years 10 months) *Vilnius*

- Server installation, maintenance and configuration
- Windows server administration (Active Directory, MS Exchange and other)
- Network hardware configuration
- Relational databases maintenance (most in „Interbase“ database management system environment)
- Other IT systems maintenance and IT problems solving

IT Consultant

March 2008 - February 2011 (3 years)

IT systems maintenance and IT problems solving

Education

Vilnius College of Higher Education

Informatics Engineering Bachelor, Information Systems · (2004 - 2008)
